

# Asian Regional Director's Missions

1. Take the initiative in **forming and executing** the scientific and technical policies for GDE, by providing the Central Team Director with inputs from the Asian Accelerator and Physics communities.
2. Maximize the scientific, technical and intellectual contributions from members of the Asian communities to the GDE, in structured and coordinated ways.
3. Facilitate the **equal sharing of information** on all aspects of the GDE activities within the members of the Asian HEP and HEA communities, and the general public.

# Asian Regional Director's Tasks (1)

## Formation and Execution of Programs

- Act as the contact to the Central Team Director on executive matters of GDE related to its scientific and technical programs.
- Act as the Asian executive secretary for discussion among ICFA, ACFA, ILCSC, ALCSC and the GDE Central Team Director on executive matters related to political and **budget issues**.

## Asian Regional Director's Tasks (2)

### Maximize Asian Contributions to GDE

- Scout for talented individuals, groups, organizations and resources in Asia, with assistance from leaders of the member institutions, to participate in all aspects of GDE's or related activities.
- Take the authoritative initiative in structuring, organizing and, if appropriate, coordinating the Asian activities on ILC in line with the scientific policies of GDE.

# Asian Regional Director's Tasks (3)

## Communication and Outreach

- Coordinate the accurate and effective communication link among the Asian institutes on all aspects of GDE activities.
- Lead the outreach efforts, at the request of ACFA and ALCSC, to promote the publicity of ILC project in Asia.

# Other Issues related to Asian Regional Director's Missions

- It will be quite important to establish the director's **support team** ('secretaries') to **work out research programs**, distribute them among participating institutions and individuals and **execute them**.
- Other issues
