

ILC-Asia Organization

September 20, 2005

Fumihiko Takasaki

The ILC-Asia Regional Team : Basic Concept

- The ILC- Asia Regional Team (ILC- AS) is responsible for the organization, Coordination, and execution of the ILC- AS regional effort within the int'l **accelerator R&D program** aimed at the development of a complete design for the International Linear Collider (ILC).

Physics & Detector Studies ?

- The ILC- AS is chartered by the Asian Linear Collider Steering Committee (ALCSC) as part of the International Linear Collider Global Design Effort (GDE).
- The responsibilities and authorities of the ILC- AS are defined for the period through the completion of the Technical design for the ILC and include following roles : (following page)

The ILC-Asia Regional Team :

Roles

- Define the technical scope of work, schedule, and resource requirements for the ILC- AS in collaboration with the GDE and in consultation with the ALCSC and **the Resource Board of Asia (RBA) which is defined elsewhere.**
- Measure progress relative to the established plan. Monitor technical resources and facilitate the application of these resources to maximize the effectiveness of the Asian effort in support of GDE.
- Provide necessary accountability of the Asian regional effort to the ALCSC and RBA.

The ILC- Asia Regional Team : Composition

- The ILC- AS consists of a Regional Team **Director** and **Deputy Directors**, if needed, and **Team members** including **secretariats**.
- The Director and **Deputy directors** (?) will be appointed by the ALCSC with the endorsement of the ILCSC and GDE Director.
- An organization chart describes how the ILC R&D effort is organized within the Asia.

We have not yet discussed about this.

Asian Regional Director's Missions

1. Take the initiative in **forming** and **executing** the scientific and technical policies for GDE, by providing the Central Team Director with inputs from the Asian Accelerator and Physics communities.
2. Maximize the scientific, technical and intellectual contributions from members of the Asian communities to the GDE, in structured and coordinated ways.
3. Facilitate the equal sharing of information on all aspects of the GDE activities within the members of the Asian HEP and HEA communities, and the general public.

Resource Board

- It consists of the directors of major institutes of Asia.
- It oversees activities of the ILC-AS.
- It provides **necessary support** for the smooth and efficient joint works of the ILC-AS.

Institutional Board

- The Institutional Board is constituted by all institutes which is willing to join the joint activities of the ILC-AS.
- It serves as a central body of communication among the member Institutions in the ILC-AS in close communication with the Regional Team.
- It is constituted by one representative of each institute.
- It has a chair person whose term is two years.
